PROFILE SUMMARY

- Backend Engineer with 6 years of experience building **scalable, high-performance systems** and delivering **data-driven solutions**. Skilled in modern backend technologies and passionate about solving complex problems to drive **business impact**.

PROFESSIONAL EXPERIENCE

Senior Backend Engineer | Foodmarkethub

March 2022–Present

- Architected and deployed backend systems from scratch using **Node.js, PostgreSQL, and microservices**, scaling to support high-volume transactions.
- Spearheaded development of **RESTful APIs and Hasura GraphQL services**, improving integration speed and developer productivity.
- Optimized **PostgreSQL** queries and refactored services, improving **system efficiency by 30%**.
- Designed reporting pipelines with AWS Glue, S3, and Athena, reducing data export times by ~98% and improving analytics speed.*
- Collaborated with product, frontend, and QA teams to translate complex requirements into customer-focused solutions.

Backend Engineer | Easeyourlife

July 2019–February 2022

- Built and optimized **RESTful APIs** and **database models** with **Node.js, Express & Firebase**, solving problems as per requirements.
- Integrated third-party services and implemented **unit testing**, while independently managing backend infrastructure for smooth operations and high reliability.
- Gained hands-on experience with diverse technologies and frameworks, including **GCP, Firebase stack, NoSQL databases, payment integrations, Flutter, GraphQL**, etc., to build robust backend solutions.
- Collaborated directly with **founders and operations team** to translate project requirements into functional backend solutions, ensuring timely feature delivery.
- Troubleshoot and resolved technical issues, improving system reliability and operational stability.

SKILLS

- Backend & Architecture:** Node.js · Fastify · Express · Hasura · GraphQL · PostgreSQL · Microservices · System Design & Scalability
- Cloud & Databases:** AWS · GCP · NoSQL · Firebase
- Frontend:** React.js · API Integration
- Problem-Solving & Soft Skills:** Analytical Thinking · Complex Problem Solving · System Optimization · Collaboration · Communication · Agile & Adaptable

EDUCATION

VES Institute of Technology, Mumbai University

Bachelor of Information Technology,
CGPA: 7.8/10

Mumbai, MH

June 2019
